

Dear Friend:

Thank you for your interest in Hannah's House. We are a Christian maternity home and are able to provide housing for up to three mothers. We are funded through private donations so there is no charge for mothers to live at Hannah's House.

Any pregnant woman over the age of 18 may apply for residency. We offer shelter, baby items, guidance with parenting and living skills, referral to continuing education and medical or counseling services. Each mother is required to attend a Christian church service on Sunday morning, a weekly Bible studies in the home, perform chores, observe curfews, sign in and out, and either work or go to school.

The period of residency is through pregnancy and up to nine months after birth for women choosing to parent their babies, or up to six weeks for women making an adoption plan.

I have enclosed an application packet. Please complete each form and request your physician to send us proof of pregnancy and a Drug of Abuse Panel.

Return completed packets to Hannah's House and call to set up an interview. Our team will review your application and will make a decision regarding admission. Please keep us informed with a number at which you can be reached. You will be informed of the decision within 3 business days of your interview.

Sincerely,

*Virginia Taylor*
